

## **INTERNSHIP – GLOBAL LEGAL INNOVATION**

Want to practice what you've learned at university? Do you want to experience hands-on what your dream job is like? Are you a sports lover who's ready to work in an international environment and take responsibility for your own projects? Then welcome to the adidas Group.

This is an opportunity to join a truly international business with an environment that is often described as dynamic, innovative, and culturally diverse. If you share our love for sport and competition and have the drive to be number one in what you do, then consider this option to join our winning team!

### **Purpose & Overall Relevance for the Organisation:**

- To provide patent support for the Global Legal Innovation Team

### **Key Responsibilities:**

- Provide support to Patent Clearance, including the research of patents and other prior art (internal searches in database system and external searches supported by outside counsel)
- Handling of invention disclosures
- Conducting prior art patent searches for evaluation of own inventions or for evaluation of validity of third party IP rights
- Monitoring the patent activity and products of competitor (including monitoring their websites and other literature)
- Provide support to the preparation of new patent applications and designs
